3.0 Matters Arising from the Minutes
There were no matters raised at this time.
4.0 Report from the Chair

The Chair presented a slide show dealing with the topics below. Key points noted include:

- **Budget**
  - $200,000 in one time funding has been provided for International students from the Provost’s Office.

- **Enrolment**
  - Reflecting the downturn of the economy, demand for some programs (e.g. STEM, MGMT) are down, particularly from international students.
  - If programs are aware of significant upcoming changes in enrolment GPDs are asked to contact the Chair.

- **FGS Deanery**
  - Associate Dean, George Shimizu, will complete his term in FGS on June 30, 2016.
  - Associate Dean, Lisa Hughes, has agreed to extend her term by 6 months, that is until June 30, 2017, and she will take the responsibility for Scholarships upon G. Shimizu’s completion of term, for one year.
  - A decanal renewal process will be led by the Provost and will take place this coming spring or fall.

- **Supervisory Renewal**
  - GPDs were thanked for their input and assistance in editing the current supervisor list. Various scenarios were discussed regarding potential retirees, people taking leaves and those supervisors in instructor roles. GPDs were asked to forward updates and decisions will be made on a case by case basis. The revised list will be sent out to GPDs on March 14.
  - The Supervisory Renewal process was reviewed.
  - At the request of GPDs the Application for Supervisory Renewal will be sent out following the meeting for information purposes only. It should not be put into use until March 14.
  - In addition to the renewal process there is also the Formal Review Process, which allows for student input and representation from TUCFA. Regarding student input consideration will need to be given to the process for soliciting information, as well to protecting students.
  - The renewal process is an opportunity to discuss what is working well and to congratulate supervisors on their accomplishments, as well as to make them aware of resources available to assist them.
  - To assist with having productive conversations around supervisory renewal, a Dean’s Lunch has been scheduled for May 10.

- **Supervisory Issues**
  - Uncertainty is noted regarding whether supervisory issues are increasing or if there is simply a higher frequency of reporting.
  - Specific concerns related to international students were discussed.
  - The Chair asked FGS Council members to think about the coming year and about how the international student experience can be improved. The greatest issue(s) will be identified and funds directed towards making improvements.

- **Interdisciplinary Symposium in Conjunction with Congress 2016**
  - The Chair invited FGS Council members, faculty and graduate students to attend “Mobilizing Graduate Students for Diverse Careers” on Tuesday, May 31, at no cost. The day will be focused on rethinking approaches to graduate education in the social sciences and humanities.

- **FGS Website**
  - Has been revised and updated and will go live shortly.

- **Canadian Graduate and Professional Student Survey (CGPSS)**
  - This survey is taken every three years, and is presently underway. Only 10% completion at this point, so FGS Council members were asked to encourage student participation.

10.1 New Certificate in Heritage Conservation – S. Tsenkova

MOTION: Moved/ Seconded
That the Faculty of Graduate Studies Council recommend to Graduate Academic Program Sub-Committee the Certificate of Heritage Conservation as presented.

CARRIED

S. Tsenkova explained the proposal and the following points were noted in the discussion:
- The certificate is based on standards and guidelines from across Canada. It has an international focus as well as a Western Canada regional focus, which is reflected in the linkages between theory, practice and course content.
- One year is planned for the development of the curriculum.
- This certificate does not ladder into a degree.
- Further consultation is requested and required with related programs (e.g. Archeology and Anthropology) to establish linkages and synergy.

The Chair congratulated the Faculty of Environmental Design for its success. It is the only faculty with a steady increase in application numbers over the past five years, which coincides with the faculty’s level of innovation; three new programs have been developed and two are in the development process at present.

L. Young stepped down from the role of FGS Council Chair and R. Yates took the Chair position for agenda item 10.2.

- Although programs do not have to stipulate a specific number and what is suitable for programs will vary, there needs to a guideline or mechanism to manage supervisory load.
- Program concerns, issues, and questions were raised and discussed (e.g. co-supervision, person responsible for monitoring, structure of supervisory organization, interdisciplinary programs approach).
